

National Clinical Impact Awards 2023 (*England and Wales only*)

This year's application window opens on **3rd March** and closes **28th April (5pm)**.

From 2023, the process of applicants receiving citations and rankings from the Professional Societies has been discontinued. It was deemed that this process favoured some applicants by allowing the inclusion of additional information, and does not align with ACCIA's equality objectives.

The 2023 National Clinical Impact Awards guidance for applicants seeking to apply is on the GOV.UK website (6/2/2023):

<https://www.gov.uk/government/publications/clinical-excellence-awards-application-guidance/guide-for-applicants-national-clinical-excellence-awards-2021-awards-round>

Your employer will need to complete the shortened part 2 of the application form and you need to give them sufficient notice for this.

The Society cannot proofread, review or directly critique any part of a NCIA application. The VS will provide assistance and general guidance with NCIA applications using tools made available to them by ACCIA.

Marcus Brooks
Honorary Secretary

12th February 2023
